Letter from the Conservator of Forests, S. C., No. 4559, dated 11th January 1889—Requesting that he may be informed what meaning should be attached to the term "brushwood" in the rules regarding the cutting of forest produce in Kánara which were published in Volume XV, Part I, of the Gazetteer; and making remarks.

Letter from the Conservator of Forests, S. C., No. 4671, dated 16th January 1889—Bringing to notice certain difficulties and doubts arising from the present wording of Government Notification No. 299, dated 15th January 1881; and submitting a draft of the notification which he proposes should be substituted for the previous notification

Memorandum from the Commissioner, S. D., No. 1987, dated 24th June 1889—Submitting his remarks with reference to Government memorandum No. 1621, dated 27th February 1889; and recommending the publication of the proposed notification with the amendments suggested by the Collector of Belgaum.

Memorandum from the Commissioner, S. D., No. 4264, dated 21st December 1889—Submitting with reference to Government memorandum No. 6251, dated 24th August 1889, reports on the subject, Nos. 175 and 3463, dated 17th September and 13th December 1889 respectively, from the Forest Settlement Officer, Kánara, and the Collector of Kánara.

RESOLUTION.—In the circumstances reported the definition of brushwood given by Mr. Woodrow may be accepted, *i. e.* bushes, shrubs and all ligneous growths which do not become timber trees. The list* of such ligneous growths supplied by the Divisional Forest Officer is appended to this Resolution for the guidance of officers of the Forest and Revenue Departments.

2. The publication of the notification prepared by the Conservator of Forests, S. C., as amended by the Collector of Belgaum in supersession of Notification No. 299, dated 15th January 1881, is sanctioned.

A fresh
notification now to be
issued by Govt, stating
that the survey numbers,
named in Notification
No 8884, are those of the
Original Survey, would,
perhaps, meet the letter
of the requirements of
§ 4 of the Indian
Forest Act 1878.

But, then
again, the limits of
the proposed forest have
to be described by
"well-known or readily
"intelligible boundaries?"

Now, at the present
time, are the boundaries
of these original survey
numbers such boundaries

They can hardly, I
think, be held to be
so. This is so, be-
cause the original

Survey numbers have,
now for many years
past, been superseded
by altered numbers,
i.e. by those of the
Revised Survey.

The revised

survey was introduced
into the talukas in
question in the following
years

Talukas	year
Parasgad	79/80
Gokak	83/84
	85/86
Chikodi	85/86
Belgaum	87/88

It cannot, then, I
think, be held that
the boundaries of
(original) survey numbers,
superseded — take
the Parasgad Taluka —
ten years ago, are
at the present time
"well-known or readily
"intelligible."

This difficulty
might, in my opinion,

be overcome in the following manner. All the survey numbers in question have been constituted protected forest. Every one knows, or can readily learn, what land is at the present time protected forest. So, in the fresh notification (were one issued by Govt), if it were added that these survey numbers, besides being those of the original survey, were protected Forest at the present time, the requirements of §4 of the Indian Forest Act would, in my

opinion, be fully met.
The boundaries of the
land, so described, could
well be held to be
"well-known" or readily
"intelligible."

5. But, again,
the only reason why
a more accurate definition
of the land should
not now be notified,
in supersession of the
inaccurate one in ques-
tion, is that time and
trouble would be saved
thereby. The more ac-
curate definition would
state the numbers, ac-
cording to the revision
survey; — i.e. as they
are at present and
in a manner well-
known and intelligible

to all.

But, still,
were only an amended
Notification to issue,
as suggested by me
in § 4, no time would
be gained thereby. In
that case, equally
as in the case of
an entirely fresh Noti-
fication, the Fresh
Settlement Officer would
have, I think, to
begin his enquiry de
novo — i.e. issue his
notices afresh.

Further, in
the final Notification
under § 19, the land
will have to be
described by the existing

(the revised) survey
numbers. Some amend-
ing Notification has,
perforce, to issue. So
there seems no suffi-
cient reason why the
more accurate definition,
giving the revised
survey numbers, should
not now issue; rather
than the Notification,
described in §4.

I recommend,
then, that the Notification
be issued de novo.

2 I think ^{with Mr. Gray} that it will suffice to keep to the original survey numbers for the final ^{and} original notifications.

3 Mr. Gray shows that it is not possible to issue the first notification according to previous survey numbers; for the same reason it will not be possible to issue the final notification according to the revised survey.

4 I think the boundaries of the old survey of the forest and waste numbers must still be quite clear on the ground, and that

they could be easily fixed
by anyone desirous of
finding them out. The
survey officers do not, so
far as my experience goes,
destroy ~~obsolete~~ bands they
simply mark them to show
that they are old by making
a hole on their tops. It
would cost a good deal
of money to destroy them;
and it would take a long
time for all traces of them
to disappear by natural
causes. All corners have
at least two bands, ^{and a stone,} often
three or more, and it is
extremely improbable that
traces of every one of them

in any case will disappear
in a few years. Of course,
only one of the corner
boards is necessary for the
fixation of the numbers
with sufficient accuracy
for our present purpose.

5 Unless the old survey-
numbers are kept to through-
out the enquiry, the matter
will be still further com-
plicated by the fact
that old survey numbers
were split up and protected
and reserved by Mr Horley
(the former Settlement officer).

6 Mr Gray objects, I think
to arrange her boundaries
that they shall coincide

with removal-survey-bound-
aries. This can easily be
done

7 I presume that, if the
procedure recommended
by Mr Gray and myself be
followed, an addendum
to the original notification
would have to be issued
under section 6 stating
that, in the proclamation,
the survey-numbers referred
to are old survey-numbers;
and prolonging the period
fixed under 6(c) for a period
of 3 months from the date
of the fresh notice. This
need not in any way
interfere with the progress
of

of the Settlement as Mr
Gray can go on with his
relections and statements
without interruption it
will merely delay the final
notification 3 months

The lands do not now bear the numbers: they are shown as bearing in the notification nor did they do so at the time of its issue. Sir,

Government Order No. 1498 of 1890

re with returned

to 2888 of 28th April, 1890 calls for my
opinion on the question whether a
Notification under Section 4 of the
Forest Act, 1878, satisfies the require-
ments of that section in describing
the lands to be constituted reserved
forest by the numbers which they
formerly bore but which, as the
Survey has been revised, they
no longer bear.

2. Section 4 (b) of Act VII of 1878
as amended by Act V of 1890 requires
a Notification "specifying as nearly
as possible the situation and limits

of

of such land", and as observed in the papers the limits will be sufficiently described under explanation 1. to that section by boundaries that are well known and readily intelligible.

3. The Act does not require the Survey numbers to be specified at all. That is probably the most convenient mode of description in this Presidency but there is no necessity for citing the numbers, so long as the limits of the land are indicated in a way that the public can recognize.

4. Notification No 8884 is certainly open to objections, not merely as a description of the lands by boundaries that are now possibly no longer well known but as an ambiguous if not misleading description

141

description, which might apply to
two different areas, and which the
public might reasonably under-
stand as applying to areas other
than those intended

5. It therefore appears that
it is absolutely necessary to correct
i by a more accurate description
before further proceedings can be taken

6. But it is not necessary, and it
would apparently be most inconve-
nient if not impossible to describe
the land by the limits of revised
Survey numbers.

7. The Collector of Belgium reports
that the boundaries of the original
Survey numbers can hardly be
held to be "well known and
readily intelligible," and as some
have been superseded for 10 years
his fear seems to be well founded.

S. Bur

8 But he suggests an alternative which Government will probably deem satisfactory. In paragraph 4 he says "all the Survey Numbers in question have been constituted Protected Forest. Every one knows, or can readily learn, what land is at the present time protected forest." As this will specify as nearly as possible the situation and limits of the land by boundaries well known and readily intelligible I would venture to suggest the issue of a Notification in place of O's 8884 worded somewhat as follows-

In exercise of the powers conferred by Section 4 of the Indian Forest Act No VII of 1878
as

175

as amended by Act. II of 1898.
His Excellency the Governor
in Council is pleased to declare
that it is proposed to consti-
tute in the Belgaum, Belu-
-padi and Parangad talukas
of the Belgaum collectorate
those lands Reserved Forests
to which no Protected Forests
the provisions of Chapter IV
of the said Act have by ^{note} ~~not~~
fications (noted in the margin)
been declared applicable.

The limits of the said lands
are those of the Protected Forests
in the said talukas, and the num-
-bers within which, previous
to the last Survey thereof,
they were respectively com-
-prised are specified in the
Schedule hereto annexed.

The notification under section 4, I think, intended to be more precise as a final record of rights. This is indicated by the words "definitely according to boundary marks erected or otherwise" in the last sentence but one of that section. I do not think it is necessary before issuing a notification under section 4 to wait till the materials necessary for one under section 19 are ready. The loss of time in this case therefore need not apparently exceed three months.

I have the honor to be,

No. 3297.

REVENUE DEPARTMENT.

Bombay Castle, 12th May 1890.

Memorandum from the Commissioner, S. D., No. 846, dated 31st March 1890—Forwarding for orders the correspondence noted in the margin regarding a proposal to make the necessary alterations in Government Notification No. 8884, dated 25th November 1889, declaring that it is proposed to constitute certain lands in the Belgaum Collectorate Reserved Forests, consequent on the changes in the survey numbers owing to the introduction of the revision survey in the talukās in which the lands in question are situated; and observing as follows:—

"The question is whether the notification describing the land by the numbers they bore previous to the revision survey complies with the requirements of Section 4 requiring it to specify the limits of the proposed Forest. The lands do not now bear the numbers they are shown as bearing in the notification, nor did they do so at the time of its issue. It is probable that there will be no doubt as to what areas the notification is intended to apply to, but as the specification is incorrect, it appears to require correction and a fresh notification appears necessary.

"2. As regards the changes in the revision survey under which several old (i.e. former) numbers have been taken together as forming one number, it will be sufficient to notify the areas now to be put into Reserved Forest thus 'The portion of Survey No. which was comprised in No. of the original survey,' and Mr. Grey has been directed to follow this direction in issuing notifications under Section 6. He has also been directed to prepare fresh notifications under Section 4 to be forwarded, should Government consider them to be necessary."

Letter from the Remembrancer of Legal Affairs, No. 498, dated 3rd May 1890.

RESOLUTION.—Copies of the report by the Remembrancer of Legal Affairs should be forwarded to the Commissioner, S. D., and the Collector of Belgaum, in accordance with the Legal Remembrancer's opinion Government Notification No. 8884, dated 25th November 1889, should be cancelled and a revised notification in the terms suggested should be published in lieu of it.

December 1888, from the Collector of Belgaum, who states that the lands described in the margin, required by the Southern Marátha Railway Company form part of Reserved Forests, with the exception of Survey No. 15 of Devrái and Survey No. 46 of Shindoli; submits a draft notification for the disforestation of those lands, together with one for the acquisition of Survey No. 15, the owner of which is unwilling to part with it for reasonable compensation; intimates

that Survey No. 46 of Shindoli is Government waste land proposed to be reserved for forest purposes; observes that this and the other forest land can be handed over to the Company on the payment to Government of 25 times the assessment, which amounts to Rs. 0-12-6; and adds that the remaining lands are unassessed waste.

Memorandum from the Public Works Department of the Secretariat, Railway, No. 242, dated 30th January 1889—Stating with reference to the memorandum from this Department, No. 380, dated 16th idem, that there is no objection in that Department to the issue of the notifications referred to.

Memorandum from the Conservator of Forests, S. C., No. 5447, dated 14th March 1889—Stating with reference to Government memorandum No. 951, dated 6th February 1889, that he has no objection to the survey numbers being disforested; and observing that the existing forest growth on the lands will be cleared by the Forest Department on receipt of Government sanction.

Memorandum from the Commissioner, S. D., No. 4161, dated 12th December 1889—Submitting one No. 5376, dated 3rd idem, from the Collector of Belgaum, who states with reference to Government memorandum No. 3085, dated 28th April 1889, that the lands required in the villages of Bistenhatti and Nagargalli are forest lands.

Memorandum from the Conservator of Forests, S. C., No. 4799, dated 22nd February 1890—Stating with reference to Government memorandum No. 9799, dated 27th December 1889, that a sum of Rs. 7 should be charged to the Railway Company for the lands required in the villages of Bistenhatti and Nagargalli, and that the forest growth thereon should belong to the Forest Department.

Memorandum from the Public Works Department of the Secretariat, Railway, No. 825, dated 9th April 1890—Stating with reference to Government memorandum No. 2203, dated 25th March 1890, that that Department has no objection to the payment by the Southern Marátha Railway Company of the compensation of Rs. 7 for the unassessed waste lands required by that Company.

Resolution.—The transfer of the land to the Railway Company is sanctioned.

2. The draft notification for the acquisition of Survey No. 15 in the village of Devrái should be published in the *Bombay Government Gazette*, and the Assistant Collector in charge of the táluka should be directed to take order for the acquisition of the land.

3. The lands bearing Survey Nos. 9, 44, 45 and 47 in the villages noted in the margin, are included in Reserved Forest and the sanction of the Government of India to the disforestation of the portions thereof required by the Railway Company should be applied for.

No. 9 in Bistenhatti,
Nos. 44 and 45 in Nagargalli.
No. 47 in Londa.

4. No proceedings under Chapter II of the Indian Forest Act should be taken in respect of Survey No. 46 in the village of Shindoli, which has been notified as proposed Reserved Forest under Government Notification No. 4753, dated 11th June 1885.

5. The Public Works Department, Railway, will issue orders for the payment of the compensation amounting to Rs. 7-12-6 in respect of the lands referred to in paragraphs 3 and 4 above. The Collector should report the amount of compensation that may be awarded to the inámdár in respect of Survey No. 15 in the village of Devrái.

6. The necessary corrections should be made in the village and survey records.

with the opinion of the

I have to observe that the

the correct numbers according
to the present numbering. It
follows of course that the
corrected Notification is not

Doubtless I ought
to have noticed and stated
this fact in my original letter
No. 65 of 28th February last,
but I regret that I omitted

to do so, and although I have been aware of the state of the case, I did not anticipate that Govt. would proceed to publish ~~Notification~~ Notification No. 3297 A of 12th May 1890 without again referring it to me, and in fact directing me to submit as is usually done by the Forest Settlement Officer. 2. Touching the
Parasgad Taluka, Notification
No. 8886 is correct; the

* page 962 Part I

numbers,
given

therein, are according to the
existing, the revised, Survey
Settlement. Accordingly, in
the matter of this Taluka,

Notification 3297A (the amending
Notification) was * Page 448 Part

not called for

3. But, though
uncalled for, this amending
Notification would still be
correct—touching this taluka
— were it ^{not} for the words "previous
"to the last survey thereof,
"they were". If, for these
words, the words "they are"
are substituted, the Notification
correctly describes the present
limits of the lands in question.

4. The inaccuracy
is practically of no moment.
No one, on reading the

Notification, can have doubt²⁰⁹
which the lands are, that
are referred to therein; see
§ 4 of the Forest Act. But,
still, in such a matter it
would be well to remove
even such an inaccuracy.
Accordingly I would recommend
that so much of the
amending notification^x, as

^x No. 3297 A

relates to the
Parasgad Taluka,
should now be cancelled. The
notification might be made
in these terms.

5. With reference
to the last paragraph of the

note that there seems to me
to be no sufficient reason to
call in question the validity
of these procl^{amations}, issued

in no way cancelled thereby.

REVENUE DEPARTMENT.

Bombay Castle, 8th July 1890.

Memorandum from the Commissioner, S. D., No. 2273, dated 21st June 1890 - Submitting for orders one from the Collector of Belgaum, together with copy of a letter No. 107, dated 10th June, from the Forest Settlement Officer, Belgaum, who requests that in the circumstances stated the Paragad Taluka may be excepted from Government Notification No. 3297-A, dated 12th May 1890, and states as follows: -

"I have also to point out that I issued proclamations to the Paragad villages under Section 6 of the Forest Act, on the authority of Notification No. 8884 of 25th November 1889 in December and January last. I think that these proclamations may be allowed to stand as valid and their validity need not be affected by the corrected Notification 3297-A. I beg that you will obtain an authoritative opinion as to whether I am right on this point or not."

Resolution. - In the circumstances stated so much of Government Notification No. 3297-A, dated 12th May 1890, as relates to the Paragad Taluka should be cancelled. It is, however, necessary to re-notify the lands in this taluka included in that notification under Section 4 of the Indian Forest Act as the original notification (No. 8884, dated 25th November 1889) in respect of these lands has been cancelled by Government Notification No. 3297, dated 12th May 1890. The requisite notification should be published in the *Government Gazette*, and fresh proclamations under Section 6 of the Act should be issued by the Forest Settlement Officer in respect of the lands thus notified.

Acting Under Secretary to Government.

" dated 26th June 1880. from Mr.
E. Gray, Forest Settlement Officer
Belgaum; to the Collector of Belgaum

Looking at the fact

delineation, entrusted to my

case of the Khanapur Taluka)
an original one, but merely a
converting of lands, which
have already been settled as

it appears that the statement

would be quite unnecessary

to submit that the
wing statements will suffice—

I a statement showing
which of the protected
numbers notified in
Notification No. 8886 in the
Govt. Gazette of ^{* Recently on}
25th November ^{by Notification}
1889 I propose ^{of 12 May 18}
to retain as Reserved Forests.

II a statement showing which
of those numbers I propose
to throw out of Forest.
(I believe it will not be
necessary to "disforest" such
numbers, they being only
"Protected" and not "Reserved"
but would ask whether I
am right).

III a statement shewing any
new numbers which I
propose to take up for
Forest

IV a statement showing
areas of / previously

be reserved 4/ total of
these three areas, 5/
area of whole village
6/ area of lands left
out of forest in the
village, 7/ population and
8/ cattle."

" V a statement of villages
which contribute to
proposed Forest blocks,
lands which heretofore
have been known as
'gairan', together with
the areas of the lands
so contributed."

" Besides these statements
there will be a separate note
and decision on each village, in
which proposed selections are
made."

"I beg that you will kindly consider whether the above sketch of statements will comprise sufficient information for the purpose in hand, and that you will after giving your own opinion and suggestions regarding any further information, which may be required, give or obtain for me orders and instructions on the subject at your earliest convenience."

2. (6.) There is nothing in the act, prescribing how protected forest-land is to be disforested. Govt. will, therefore, merely have formally to cancel the Notifications, issued under S. 28 of the Forest Act, in the case of the protected forest-land, now to be thrown out

Colored maps, to illustrate the Forest Settlement Officer's proposals, should also be submitted.

4. Otherwise I agree with the Forest Settlement Officer.

2. Instructions regarding the preparation of Forest Settlement reports are laid down in Government Resolutions Nos 9154 and 2559 dated 14th November, 1885, and 2nd April, 1886, respectively. I think Mr. Gray ^{should} ~~shall~~ have to submit the data accordingly.

2 The answer to the question raised by Mr Gray, as to which of the information prescribed by these resolutions can now be dispensed with must depend on the information placed before Government at the time of the submission of his original proposals. Copies of Forest Settlement Officers reports and their appendices are not kept in my office neither are they available I understand, in yours. I am therefore unable to say whether the information alluded to by Mr Gray will suffice. Mr Gray should submit

submit all the information
required by the orders quoted
in the margin of my first
para unless it was supplied
with former reports

3 Colored maps to illustrate
the Forest Settlement Officer's pro-
posals should, of course be sub-
mitted with the report.

To

The Director of

Belgium 19 July 1890

Sir

I have the
honor to acknowledge
your reply, no. 3770 of
16th instant and its
accompanying correspondence
to my letter no. 115 of 21st
June 1890

2 With great respect
for the opinion express-
ed by the Commissioner
I would ask for a
reconsideration of my ori-
-ginal letter no. 115 with
the purpose of which
I note that you agreed,
for the following main

It is evident from
the reading to columns 3,
4 and 5 of the form
prescribed by Govt. circu-
-lar No. 76 of 22 Sept.
1889 old forest not de-
-marked under the Forest
Act that the form is
intended for an original
settlement. Now I would
respectfully point out
that my present task
(see para: 4 of G. R. No 6066
of 19 August 1889) is not
an original settlement.
Inasmuch as there was
a full and complete set-
-tlement made ten years
ago which in the main
it is not the intention
of Govt. to disturb and
that there are no means
at my disposal now of
ascertaining what was old

further that
been a Revision Survey
made subsequently to
Mr Housley's settlement
which has changed
nomenclature of all
lands

4 I would again ~~perfectly~~
-fully submit that
my suggested statements
as set forth in my
letter 14 116 of 24 June last
contain most of the
information required by
the form prescribed
the Govt. circular
of 22 Sept 1886 - other
than that of columns
4 and

5 If how ever it be
decided that the pre-
scribed form be altered
far as possible

3 It is evident from
the heading in columns 3
4 and 5 of the form
prescribed by Govt. circu-
-lar No 767J 22 Sept.
1884, — old forest not de-
- marked under the forest
Act that the form is
intended for an original
settlement. Now I would
respectfully point out
that my present task
(see para: 4 of G. R. No 6066
of 19 August 1884) is not
an original settlement
inasmuch as there was
a full and complete set-
-tlement made ten years
ago which in the main
it is not the intention
of Govt to disturb and
that there are no means
at my disposal now of
ascertaining what was

highest no. ~~to be made~~
under the new Act and
further that there has
been a Revision ~~very~~
made subsequently to
the existing settlement
which has changed the
nomenclature of ~~the~~ ~~the~~
lands

4 I would again ~~request~~
- fully submit that
my suggested statements
as set forth in my
letter No. 15 of 24 June last
contain most of the
information required by
the form prescribed
the Govt. circular
of 22 Sept. 1888 - other
than that of columns
4 and 5

5 If however it be
decided that the pre-
scribed form be annexed
to as far as possible,

I would suggest that for the heading of columns 3, 4 and 5 should be substituted "area of reserved forest under the existing settlement", and for the heading of columns 6-9 be substituted "area of protected forests under existing settlement proposed to be transferred to reserved forests", with these alterations the remainder of the prescribed form might perhaps be made applicable to the subject in hand.

6. I would respectfully urge, that the point with regard to the information of column 3-5 is not so much whether Mr. Fleorsley submitted it to Govt. or

not, as that it is very
unobtainable, having been
effaced or merged in
Mr. Horsley's settlement,
and having been still
further obliterated by the
subsequent revision survey.

7. What information
Mr. Horsley did submit
is described in para. 17th
of his report as follows:-

"The whole of this portion
of forest settlement is shown
in detail on the accom-
panying statements and
map

the Numbered State-
ment (appendix I) shows
village by village what
survey numbers are &
constitute Protected Forests
with the various sub-
divisions of free-grazing,
grazing on fee kumri
The second state

"-ment (appendix II) is a
"comparative one showing the
total areas taken for forests
under the two heads, as
compared with the total
area of the village - total
cultivation number of
and whole area left for
extension of cultivation

In the map appen-
dix III) the same results
are shown partly by co-
-lours and partly by words
written across.

I may mention
that of these statements
appendix I is not to be
found remaining in the
records in this district, ap-
pendix II remains attached
to the Office copy of the
report.

I have the honor to be
Sir
Your most obedient servant.

Forests: Belgaum.

No. 5969.

REVENUE DEPARTMENT.

Bombay Castle, 29nd August 1890.

Memorandum from the Commissioner, S. D., No. 2890, dated 30th July 1890—Submitting, together with subsequent correspondence, memoranda from the Conservator of Forests, S. C., and the Collector of Belgaum, together with copy of a letter No 115, dated 24th June 1890, from the Forest Settlement Officer, Belgaum who expresses it as his opinion that, as the settlement and demarcation entrusted to him is not (excepting in the case of the Khanapur Taluka) an original one but merely a converting of lands which have already been settled as Protected into Reserved Forests, the statement prescribed by Government Circular No 7677, dated 22nd September, 1885, will not be applicable and would be quite unnecessary; details the statements which he thinks will suffice; and requests instructions on the point, the Commissioner observing as follows:—

"2. Mr. Gray was appointed Forest Settlement Officer to arrange for the conversion of Protected into Reserved Forests. No fresh area will be taken up, and the object for which the preparation of the statements was ordered in Government Circular No 7677 of 22nd September 1885 does not therefore exist.

"3. Mr. Gray also points out practical difficulties in the way of preparing the statements

"4. The undersigned would submit that it is not necessary to prepare them."

RESOLUTION—In the circumstances stated, the statements prescribed in Government Circular No. 7677, dated 22nd September 1885, need not be submitted with the reports of the Forest Settlement Officer, Belgaum and Dhárwār. It will suffice for Mr. Gray to submit with his reports the statements I to V mentioned in paragraph 2 of his letter No. 115, dated 24th June 1890, with maps illustrating his proposals. Statement II should, however, give the numbers and dates of the notifications, under which the lands to be finally excluded from the forest area were notified as Protected Forest, as it will be necessary to issue a formal notification disforesting such lands.

Divisional Forest Office, B.D.

Belgaum, July 17th 1890.

Sir

Now that the resettlement of the forests in the Belgaum District has been taken in hand, I have the honor to propose that certain lands in the Athani Taluka, constituted Reserved Forest under Government Resolution No 8,568 dated 6th December 1882, be disforested.

2. These lands, known as 'babul Kurans' are situated on the banks of the River Krishna and some of its tributary streams. They comprise an area of 1350 acres.

and form 22 different blocks in 14 villages. They consist of very valuable grass land more or less covered with babul trees. The average revenue of the last 3 years derived from the grass is Rs 2894/- and from the wood Rs 195/-. The average expenditure on ~~maintenance~~ of established trees is Rs 638/-.

At the time when these lands were constituted forest the alleged reason for the change was that by being covered with trees they would serve as checks to stem the force of the rivers and prevent erosion. I need not say that the idea of arresting the flow of the mighty Krishna by a few hundred acres of babul covered grass lands is simply ridiculous and only on a par with Mr. Parkinson's attempt to keep back the Atlantic Ocean with her broom. For such a purpose trees are much less efficacious than river side reeds and bushes, which are largely employed by the owners of lands adjoining the river.

There is absolutely not a single ^{legitimate} reason why these lands should be kept as forest and there are plenty of reasons why they should not.

They are eminently agricultural lands and would, I am certain, ~~be better~~ ^{be} fit if ~~they~~ ^{they} were sold by auction.

If they are to remain grass lands, it would save the expenditure on establishment if they are broken up by the Revenue department. It is absolutely impossible to exercise any protection over small areas of land so scattered and in many instances so close to the village. Within the last 3 years not a single forest offence has been detected though any number of them have been committed.

These lands are situated so far away from head-quarter that the divisional officer can exercise very little control over the establishment there. To visit them entails a journey extending over a fortnight.

The average revenue of the last 3 years derived from the grass is Rs 2,894/- and from the wood Rs 196/-. The average expenditure on account of ~~improvement~~ ^{improvement} is Rs 638/-.

At the time when these lands were constituted forest the alleged reason for the change was that being covered with trees they would serve as checks to stem the force of the rivers and prevent erosion. I need not say that the idea of arresting the flow of the mighty Krishna by a few hundred acres of babul covered grass-lands is simply ridiculous and only on a par with Mrs Partington's attempt to keep back the Atlantic Ocean with her broom. For such a purpose trees are much less efficacious than river side reeds and bushes, which are largely employed by the owners of lands adjoining the river.

There is absolutely not a single ^{legitimate} reason why these lands should be kept as forest and there are plenty of reasons why they should not.

1. They are eminently agricultural lands and would, I am certain, give a more ~~profitable~~ and sold by auction.

2. If they are to remain grass lands, it would save the expenditure on establishment if they are looked after by the Revenue Department.

3. It is absolutely impossible to exercise any protection over small areas of lands so scattered and in many instances so close to the villages. Within the last 3 years not a single forest offence has been detected though any number of them have been committed.

These lands are situated so far away from head-quarter that the divisional officer can exercise very little control over the establishment there. To visit them entails a journey extending over a fortnight.

or 3 weeks and there is so little to gain from a visit, that it may be regarded as an absolute waste of time on his part to go there.

Under the present system the grass is sold by auction each year to the highest bidder, and dead or fallen trees are likewise disposed of. No attempts at replanting have been made nor do I consider them advisable. In this case the well-being of the grass which is more valuable product rather than of the trees which are quite secondary is to be considered, and the quality and quantity of the former varies inversely with the quantity of the latter. The necessity for forest management is therefore nil and the retention of these lands is simply a drag on the Department.

1. Accompanying this letter is a statement showing the villages in which these lands are situated and their areas.

But for orders
whether the Govt of
India shd be moved

in connection the dis-
possession of the
kurans referred to

It will be seen
from the correspondence
underlying G. R. No.
2510, dt 17. 4. 82 that
these kurans were
considered at the
time to be a valuable
forest property & it
was with a view to
prevent their deterioration
by

by placing them
under scientific treat-
ment that they were
conservated Reserved
Forest. The Div. Forest
officer now states in
his letter that no
attempts at replanting
have been made &
that no forest-offences
have been detected
during the last 3 years
though any ^{number} ~~one~~ of them
have been committed.
It is not clear from
this what duty the
establishment costing
Rs

253

Rs 638 per annum
is employed to perform

It is now pro-
posed for the reasons
stated by the Dist.
Forest officer to re-
transfer the manage-
ment of the Gurans
to the Land Res Dept
& to place them in charge
of the or many village
& taluka establish-
ments. Under the
present arrangement
the net yearly gain to
Provincial Revenues
from the Gurans is
Rs

Rs. 1,225 or half of
Rs 2451. In case the
kurans are made over
to the Land Rev. Dept
& supposing that there
is no charge on account
of establishment &
the income continues
to be the same, the
annual gain to Provin-
cial Revenues will be
reduced to Rs 772
or one-fourth of Rs
3,089 which is the
amount of the present

gross revenue

29/8 The Commr. S.D may be
informed that in the opinion
of Govt. no adequate comm

been shown for the displacement of
 their natural means. If they have been
 but indifferently managed ^{protected} by the Forest
 Dept. as well appears to be the case from
 Mr. Murray's statement that "within
 the last 3 years not a single forest offence
 has been detected though an enormous
 of them have been committed", not with-
 standing the fact that an establishment
 costing Rs. 638 per annum is maintained
 to supervise them. It is not probable
 that they will be more efficiently controlled
 by the local officers of the Land Revenue
 Dept. It is not satisfactory to note that no
 attempt has been made to improve them
 as forests by planting. On this point the
 Govt. are in the wrong.

Mr. M. to Mr. Gregory's explanation
 24.8.90 24.8.90 shall take on +
 Mr. M.'s explanation

Mr. MacGregor's main idea as
 evinced by all his recent recommendations
 in the case of Kamara bet lands, Korah
 Dathi assignments & in this instance
 seems to be to get rid of as much as
 possible of his proper work & of the
 duties of his Dept by making over to
 the Land Rev. Dept lands now in
 forest & which obviously must be
 retained as such.

No. 6256.

REVENUE DEPARTMENT.

Bombay Castle, 4th September 1890.

Letter from the Conservator of Forests, S. C., No 1706, dated 18th July 1890 :—

" I have the honour to submit a letter No. 71 of 11th July 1890, from the Divisional Officer, Belgaum, in which he recommends the throwing out of reserved forest all the bábul-kurans in the Athni Táluka.

" 2 These kurans yield a good revenue from grass and are fairly well stocked with bábul-trees. Under cultivation they would probably yield less. I think it is desirable that they should be maintained as bábul-kurans, as they afford useful shade and some timber and fuel in this treeless tract. But for reasons stated by Mr. Murray, I am inclined to think there would be no harm in handing them over to the Revenue Department

" 3. In that case the sanction of the Government of India would be required for their disforestation."

Letter from the Commissioner, S. D., No. 2886, dated 30th July 1890 :—

" I have the honour to forward a letter (No 1706 of 18th instant) from the Conservator of Forests, S. C., recommending the disforestation of certain bábul-kurans in the Athni Táluka

" 2 These kurans are small and isolated, situated at considerable distances from one another and still farther from any forest land in charge of the Department. A large revenue is realized from them by the sale of grass. Their supervision by the Forest Department entails the absence of the officials who have periodically to inspect them from their own legitimate duties. They can be equally well supervised by the village and taluka officers, and while I would deprecate their diversion from their present purposes, I concur with the Conservator and District officers in recommending their disforestation."

RESOLUTION.—The Commissioner, S. D., should be informed that in the opinion of Government no adequate cause has been shown for the disforestation of these bábul kurans. If they have been but indifferently managed and protected by the Forest Department, as would appear to be the case from Mr. Murray's statement that "within the last three years not a single forest offence has been detected though any number of them have been committed," notwithstanding the fact that an establishment costing Rs. 638 per annum is maintained to supervise them, it is not probable that they would be more efficiently controlled by the local officers of the Land Revenue Department. It is not satisfactory to note that no attempt has been made to improve them as forests by planting. On this point the Conservator should be requested to furnish explanation.
